

KILBIL ST. JOSEPH'S HIGH SCHOOL

IXA'S

LOCKDOWN CHIRPING BIRDIES

*From Fear To A
Creative Year*

Mission And Vision.....

Mission

To equip our students with right , attitude's , creative thinking , moral and ethical Values , eco-consciousness To face the challenges of life with courage and optimism and build a just society .

Vision

To facilitate the all round development of the individual through a sound spiritual , intellectual, emotional and physical education based on gospel values of love , truth ,justice and peace to serve humanity.

Principal's Message

“As long as our ideas are expressed and thoughts kindled we can be sure of learning, as everything begins with an idea.”

My dear Parents, Teachers and Students,

I was always attached to the thought **Home is the first school and School is the second home.** In fact, today it has come true. COVID 19 has altered our life including our school system, teachers, children and parents. Our homes have become school and parents have

become teachers too. Unimaginable! Invariably it is happening. It's a fact we have to live with it now whether we are rich or poor, far or near. E-learning has emerged as the best way of imparting education.

It gives me a great joy to meet you all through this e-magazine a great way to communicate and be creative. Enjoy our magazine as we move on with our lives. I thank all who contributed to this endeavour.

Be assured that the Management, teaching and non-teaching faculty of the school is working towards making this lockdown a meaningful and fruitful one. We will leave no stone unturned in educating our Kilbil family. I remain grateful to all the parents and well-wishers for your priceless support and cooperation at this moment. My sincere advice to all the students - Do not lose HOPE. Concentrate on the Silver lining amidst the thickest and darkest cloud at present times. We, at Kilbil St. Joseph's school, hope to see you all soon - refreshed and rejuvenated. Till then

SPARK A LIGHT - ILLUMINATE THE WORLD.

Sr. Flora UMI

Principal

Kilbil St. Joseph's High School, Nashik

Manager's Message

Dear Parents, Teachers and students,

"Good habits shape your future"

I am reminded of a little piece of wisdom from the life of Felice Leonardo "Leo Buscaglia" known as "Dr. Love". There was a strange system in his family. At the end of each day, after everybody sat around the dining table, the father would ask each one, what they had learnt from the day. So each one had to share something that they had learnt on that day and only then they could eat. So in case anyone of them in the family said, "No, today I learnt nothing", it seems the father used to say, "Let everything remain on the table, come lets go and open the encyclopaedia. Let's learn something and come back to the table and only then we shall eat." Leo used to think that he was a cursed child of a bad father who did not allow him to enjoy his dinner and rather demanded that he would have to tell him what he learnt on that day.

As life moved on, Leo became a motivational speaker and a professor in the department of Special Education at the University of Southern California. Today, when he listens to the standing ovation of lakhs of people for his excellent performance, he says, ***"But one thing has not changed; when I brush my teeth, and I come to the bed and lie down, I can still hear Papa ask me, 'Felice, what have you learnt for the day?'"*** All great people have a history of discipline and cool habits **Yes, good habits shape your future.**

Keep learning something every moment. As infants, we're presented with a strange new world to discover. And with nothing else to do, we dive in head first, devoting all our time to learning how to use our five senses. At first we appear completely hopeless, not even realizing that our arms and legs are parts of our body. But soon enough, we start figuring some things out. Within a few months, we learn how to recognize faces better than a computer can.

COVID 19 too taught us new learning. Right now, we see ourselves collectively facing this pandemic, a situation for which we had no experience and very little preparation. And, at this time when the whole world is battling against it, Kilbil St. Joseph has added another feather to its cap; the E-Magazine, to provide a platform to our students to bring out their creative thoughts and expressions.

My hearty congratulations and appreciations to the Principal and the teachers for their untiring effort in moulding the young minds and bringing Kilbil St. Joseph to its zenith. I also extend my heartfelt gratitude to all the parents for their continued support to our Institution and its endeavours. Dear parents, you have, indeed, walked an extra mile to ensure that your children make the best use of their time.

I pray that you and your children would enjoy the journey as you sail through this enchanted ocean of brilliance. I wish you all a happy and grace filled days ahead.
May God Almighty keep us safe and healthy.

Sr. Alice Antony
Manager
Kilbil St. Joseph's High School

From class sir's desk

*“When you are ready to shine ,
everything will always be fine.”*

Dear All,

Being a class teachers is always a joy but this year it was a great FEAR as nothing was CLEAR. I really repeat that we started from fear but our management, Sisters, Parents and my students made it a creative year. Even thou it was online my school did it all, we learned, we celebrated and the chirping buddies continued. So my class theme is “LOCKDOWN CHIRPING BIRDIESFROM FEAR TO A CREATIVE YEAR”. I am surely blessed to have such supportive and creative students with their parents . I would dedicate this poem to my students and my KILBIL family

Poem On Kilbil.....

When the world said nothing is fine,
Kilbil said let your light shine...

Jab sir chadke bol raha tha corona ka nasha,,
Hamari virtual meets ne badhai parents ki
asha...

Lockdown mein students jab the pack in their
room,, Teachers jaa mile unko online via
zoom....

While working some people forgot the
difference between floor and bed,, A
great salute to our digital head...

Kabhi kabhi toh samaj mein nahi aaye
What is red green and pink,,
itni banayi hamare teachers ne zoom ki link...

Hamre manager ki counselling ke
baad nahi laga kisiko bhi risk,,
great work is done by sister Alice....

Difficulties came, but they never bentt.,
Great patience were shown by my student

Some famous places may be Ajanta or
Ellora,, But Our inspiration is always sister
Flora...

Mr. Charudatt S Bhujbal

Kilbil St. Joseph's High School, Nas

Editor's Desk

Dear Reader's ,
You have in your hand 9th A Kilbilite Magazine , Kilbil Academy's official magazine . It captures the momentous moments of kilbilite's journey . We Have tried our best to make sure this memoir of Kilbil Academy helps you in recapitulating your eventful journey in Kilbil Academy . "Kilbilite magazine " is a compilation of the Immense effort put forward each and every aspect of our very own "Kilbil family". We apologize for shortcomings and hope you will cherish our efforts . Happy Kilbilite and 'au revoir' Kilbil St Joseph's High School !

Thank you !

The Editor's – Yash Bachhav

PILLARS OF KILBIL

How it began.....

This year began with all hotch-potch. The corona virus was the breakdown to world which lead to lockdown. Indian exhilarated the corona warriors by flashing brightness in their life and banged the sound to tell them that we all are with them. The world was ready to knockdown the crisis as well as we kidsites have broke the ice and started the school in june. This year was full of wonders. From school to E school. Though there was a screen in between we felt the enthusiasm. From fervor of independence to joy of Diwali 9th a celebrated with pomp and splendor. And now 9th a is coming up with all new idea of class magazine.

FROM FEAR TO CREATIVE YEAR

We all know that the world is suffering from worst crisis of corona virus . The whole world has paused its development although we the students of class 9th A and all kilbillites are enjoying this year more with our efforts and unity . So let's start with our stunning progress and enjoyments.

In the starting of the year 2020 everyone was in the great enthusiasm to make this year best but as the year started with china announcing the outbreak of COVID – 19 . The exams of standard 1st to 8th were cancelled too.

Suddenly the cases went out of control and the LOCKDOWN was extended . The education Minister took a decision of the online education For students. Firstly only worksheets were sent then in the month of june our online journey began . Our school made it's success by starting online classes . Our class 9th A got the best class teacher . He was , he is , and always be our hero and they were Sir . Charudatt s. Bhujabal . All the teacher's were also the best . At the starting of this journey we played a trick of network issues . Many of us used the mobile network and many bought a new Wi-Fi connection . The main thing was though this year we remained online but still our school conducted all the activites

You won't believe we celebrated all the Festivals the same we did in school . And Also , to keep students healthy and motivated school organised AEROBICS compitition .

LASTLY I WOULD LIKE TO SAY THAT

“ BE THE LIGHT TO SPREAD THE LIGHT ”

Autobiography of a bird during Lockdown...

Hi there! I'm a sparrow. And I'm too glad to say this that while you humans were indoors during this pandemic we birds were out in the air! And as you weren't out; the vehicles you use weren't running which lead to No Air and Noise Pollution!

even You people were not going to your workplaces; which means that the factories and the industries were closed too! Which lead to a "No Smoke Out" Also, the newspapers were not supplied, so no trees were cut down! So, plenty of space without any pollution was available for us a birds

As the pollution was decreased by every means, we were happy and cheerful to sing, chirp and chatter all over. So there was a sudden increase in our numbers! This COVID-19 turned out miracle for us!. And the miracle was a "No hunters tried to kill us! But somewhere in our heart, there is a grief that you humans had to suffer a lot, but it's okay we creatures suffer a lot too because of you humans every time!

I hope you've learned a lesson from this. Though you aren't concerned for us we are! So be safe, be healthy, and let others be safe too!

by. Shreya Pandharkar

what is neutron star?

The universe fascinates us because of its divine beauty and humongous phenomena. One of them being the time when the star dies. Where exactly does the star end up? How does it happen? These questions become more prominent when we learn about space. In fact, many of them are still merely just theories which are yet to be proven.

After a star goes supernova (when the star cannot withstand its own gravitational force, it collapses, leading to a 'giant explosion') usually there are 3 possibilities after this stage.

1. Dwarf star 2. Neutron Star 3. Black hole

These 3 possibilities basically depend upon their size. Our sun, upon completing its cycle will most probably turn into a Dwarf star. And stars bigger than the Sun has a possibility of turning into a neutron star and the biggest stars turn into black holes. But Neutron stars are much more interesting and peculiar (Black holes be like: Seriously??).

Neutron Stars

A Neutron star

Source: Forbes

Okay, so the above fellow is a neutron star. Why is he shining with such a blinding force? Well, maybe because it's average temperature reaches up to 600,000 k degrees. And why does it have those weird circles around its poles? Do you know what is the acceleration due to gravity of Earth? The acceleration due to gravity of Earth is approximately 9.8m/s^2 whereas the acceleration due to gravity of a Neutron star is about a quadrillion times that of Earth. You know what? Let's get to know our buddy!

A Star

Source: Forbes

This star is on the near end of completing its life cycle. The mechanism as to what will happen to this star is way, way different from our Sun. This star, at the start of its cycle, fuses hydrogen atoms into helium atoms which gives a force to the core. In return the crust provides an equal gravitational force making the star stable. Eventually, the hydrogen will get exhausted, and will be used into heavy elements until it reaches the giant phase. Where the star swells up due to the edge of instability. A Stable Star Source: IB Physics But gravity pushes the core with a greater force and wins. Which makes the minute particles get packed more tightly than ever. And by minute particles I mean atoms. The star continues to fuse the atoms into heavier elements until it reaches the stage where it has been fused into Iron. Iron is nothing but nuclear ash which cannot be fused further. What exactly will happen now? Well, the stars will implode. That is, it will get crushed with its own gravitational force. Protons and electrons will be fused together, leaving only neutrons inside the stellar core. And the Star will go supernova, leaving half of its mass inside the core which will now be called a Neutron Star.

(Doesn't the name make much more sense now?) This is why Neutron stars are so Impossibly dense. They may

have the volume equivalent to a small city but their mass would be enormous. These stars rotate Immensely

fast. How fast exactly? Well, about 700 times in a second.

(Wow!).

What happens when two Neutron stars meet?

Around 1 billion pulsars are found in the Milky Way.

Pulsars? Well, Pulsars are stars which cannot really be seen but they send a large amount of radio signals >>>>

A Kilonova explosion

Source: wired.uk.co So, let's imagine that while revolving around the galaxy, maybe these two stars come across each other. Neutron Stars are extremely friendly when they meet someone who looks like them. These two neutron stars will start rotating against each other and now, resulting in a Kilonova explosion. This is the point where the star becomes so dense, with mass probably out of our imagination that it becomes a Black hole, dying yet again.

Which is the nearest Neutron Star from Earth? "The Hubble telescope recently found a Neutron Star which will swing by Earth at a safe distance of 170 light years.' Unfortunately, this event will take place in about 300,000 yrs.

The science about the universe or the cosmic manifestation is very complicated and has many things yet to be figured out. Though studying about one is fascinating all the

same! Fact: Newly formed Neutron Stars are called

Magnetars which are as fascinating as the

Neutron Stars.

By. Hritika Poojary

History of nashik

No one knows when the city of Nashik came into existence. It is stated to have been present even in the stone age. Lord Ramchandra along with wife Sita and brother Laxman settled down in Nashik for the major time of their "Vanwasa". According to the mythology, Laxman cut the nose ("Nasika" in Sanskrita) of "Shurpanakha" and hence the city got the name 'Nashik'. Long ago, Brahmadeva had meditated in "Padmasana" here, so the city was also called "Padma-Aasana" for some time. It is also believed that, Lord Vishnu had defeated the three demons and thus city also had the name "Tri-Kantak" (Tri = Three). In the recent past, the Moguls were fascinated by the beauty of the city and renamed it as "Gulshanabad" meaning the city of gardens. Beautiful fresh flowers were sent to Aurangazeb from Gulshanabad i.e.

Nashik. But it was during the rule of the Peshwas, when the place was finally renamed Nashik. During the Peshwas period, Raghobadada and his wife Anandibai settled down at 'Anandwalli' in Nashik. There are some remains of Anandibai's fort. There is also a temple called 'Navasha Ganapati' built by Anandibai. It was during the British rule in April 1818, when Nashik once again regained its importance. The British fell in love with the beauty of the city and developed it in various fields. The Golf course, developed by the British, was one of the largest in Asia. Nashik is surrounded by nine hills, namely: Durga, Ganesh, Chitraghanta, Pandav, Dinger Ali, Mhasarui, Jogwada, Pathanpura and Konkani. This beautiful city with hills surrounding it has lakes, adding to its beauty.

by. Niranjan Deshmukh

[संगीताचे आपल्या जीवनातील स्थान]

संगीत

सारे ग म प ध नि सां

हे सप्तस्वर आपल्या जीवनात येतात, कुठून येतात? ते येतात आपल्या आईच्या उदरातून. तुम्ही म्हणाल कसे काय? आपली आई भले खूप छान गायक नसली तरी पण आपली आई आपल्याला अगदी बाळ असल्यापासून आपल्याला खेळण्यासाठी, झोपवण्यासाठी, बडबड गीते, अंगाई गीते गात असते. आणि तेव्हापासूनच आपण सुरांशी जोडले गेलेलो असतो. जसजसे आपण मोठे होतो वयाने, मनाने तस तशी आपल्याला संगीताची साथ आयुष्याच्या टप्प्यावर मिळत जाते.

खरं तर आपले सगळ्यांचे जीवन संगीताने भरलेले असते, आणि ह्या सर्व चराचरातून हे कायम चालूच असते. फक्त ती ऐकण्याची शक्ती म्हणजेच तुमचा *संगीताचा कान* तयार असणे गरजेचे आहे. मग तुम्हाला कोणत्याही गोष्टीतून संगीत ऐकू येऊ शकते. घड्याळाचं उदाहरण घ्या ना!! घड्याळाचा काट्याचा कसा टिक- टॉक- टिक- टॉक आवाज येतो.. तुम्ही जर शांत मनाने ते ऐकले तर तुम्हाला ताल ऐकू येईल...

तुम्ही आपोआपच मनातल्या मनात गुणगुणायला लागाल... तुमचे मनातले बोल तुमच्या ओठांवर येऊ लागतील आणि तुम्हाला खूप आनंद वाटेल.

आज तर तुम्हाला माहितीच असेल ती आपले विज्ञान किती पुढे गेले आहे. तसेच काही शास्त्रज्ञांनी संशोधन करून *MUSIC THERAPY* विकसित केली आहे, आणि त्यामुळे अनेक रोगांवर त्याचा "POSITIVE EFFECT" पण दिसून आला आहे.

आज-काल आपण *'नैराश्य'* म्हणजेच *'DEPRESSION'* बद्दल सारखे ऐकत असतो. संगीताने यातून सुद्धा बाहेर पडण्यास मदत होते असे त्यातील तज्ञ सांगतात.

ह्या सप्तसुरांचा म्हणजेच संगीताचा शास्त्रशुद्ध, सखोल अभ्यास करून त्याची योग्य रचना करून अनेक राग, ताल, बसवले गेलेले आहेत, आणि कोणत्या वेळी ते गायचे याचे देखील नियम बनवले आहेत. आणि ह्यात सुद्धा अनेक प्रकार आहेत, जसे की, भावगीते, भक्तीगीते, बडबडगीते, अंगाईगीते, अभंग, विराण्या, ओव्या, भारुड, पोवाडा, भुपाळ्या, लावण्या.. असे अजून किती प्रकार सांगायचे? ह्या सगळ्यातून आपल्याला निखळ आनंदच मिळतो. मात्र हे शिकण्यासाठी खूपच मेहनत आणि साधना करावी लागते. आयुष्यभराचा वसा तुम्हाला घ्यावा लागतो.

आपल्या सगळ्यांनाच माहिती आहे की जुन्याकाळी असे कितीतरी गायक आहेत ज्यांनी संगीतात नाव कमावले आहे. जसे की तानसेन. संगीतात पण अनेक घराणी निर्माण झालेली आहेत. राजा-महाराजांच्या काळी मनोरंजनासाठी संगीतकला उपयोगात आणली जात असे. आपण तानसेन या गायका बद्दल ऐकलेच आहे. ते जेव्हा दीप राग गात असत तेव्हा अंधारामध्ये उजेड करण्याचा चमत्कार केला आहे. आणि मेघ मल्हार राग गाऊन पाऊस घडण्याचा ही चमत्कार त्यांनी दाखवलेला आहे. त्याच प्रमाणे हिंदी चित्रपट सृष्टीने व मराठी चित्रपट सृष्टीने देखील आपल्याला असंख्य गाणी, गायक-गायिका, संगीतकार, आणि त्यांच्या अजरामर अशा सुंदर रचना देऊन आपल्याला उपकृत केले आहे.. त्यासाठी आपण आजन्म ऋणी आहोत.

पं. विष्णू नारायण भातखंडे

यांनी संपूर्ण भारतभर हिंदू उपलब्ध संस्कृत ग्रंथ मिळून सखोल अध्ययन केले आणि सर्व विचारमंथन करून त्यांनी १९०५ मध्ये 'लक्ष संगीत हा आधुनिक संगीत कलेशी सुसंगत असा संस्कृत शास्त्र ग्रंथ लिहून प्रसिद्ध केला. आधुनिक संगीत शास्त्रज्ञान मध्ये पंडित भातखंडे यांचा उल्लेख गौरवाने केला जातो. पंडित भातखंडे यांनी संगीतात जागृती केली. शास्त्रीय विभागाकडे सुद्धा संगीतातील विद्यार्थ्यांनी डोळसपणे व चिकित्सक नजरेने पाहणे यासाठीच त्यांनी नव नवे संशोधन केले. *स्वर-ताल-लिपी* बनवून हजारो बंदिशींचे नोटेशन केले.

पं. विष्णू दिगंबर पलुस्कर

समाजाला सर्वांगीण शिक्षण देणारी संगीत संस्था पाहिजे हे जाणून हे जाणून त्यांनी १९०१ मध्ये लाहोर येथे गांधर्व महाविद्यालय ही संगीत संस्था स्थापन केली व पुढे १९०८ मध्ये मुंबईला गांधर्व महाविद्यालयाची अजून एक संस्था स्थापन केली. पुढे हीच शाखा मुख्य संस्था म्हणून प्रसिद्ध झाली. त्यांनी अनेक विद्यार्थी घडविले. ह्यात संस्थेत गायना शिवाय इतर अनेक वाद्यांचेही शिक्षण मिळत असे. त्यांनी संगीत लेखन भाषेत यावे म्हणून संशोधन पूर्वक एक लेखन पद्धती विकसित केली. त्यालाच 'पलुस्कर लीपी' असे म्हणतात. अनेक महिलांना संगीत शिकण्यास प्रोत्साहन दिले व संगीताचा संगीताचा प्रसार व प्रचार केला. त्यांनी केलेल्या बहुमोल कार्याचे श्रेय पंडितजींना जाते.

मला माझ्या जीवनात संगीतामुळे खूप फरक आणि शांतता लाभली आहे. मी वयाच्या सहाव्या वर्षापासूनच संगीत शिकायला सुरुवात केली. खरंतर मला माहित होते की मी संगीत शिकते आहे पण हे माहीत नव्हते की माझी आणि संगीताची एवढी गट्टी जमेल. संगीत या विषयाला माझ्या आयुष्यात आणून माझा आयुष्याकडे बघण्याचा दृष्टिकोन बदलला आहे. संगीत हा विषय माझ्या आयुष्यात आणण्यासाठी माझा संगीताचा पाया, माझा संगीताचा खांब माझ्यापाठी उभा होता, तो खा म्हणजेच माझ्या *ताई* Thank you ताई, तुम्ही संगीत हा विषय माझ्या आयुष्यात आणला.

खरं सांगायचं तर मला माहित नाही की मी माझ्या पुढच्या आयुष्यात नक्की काय पाऊल उचलेन. पण एक गोष्ट मात्र आहे, ती गोष्ट म्हणजे, कितीही पुढे जावो मी मात्र संगीताचा हात कधीच सोडणार नाही.

धन्यवाद

by. Dnyapti Tilgulkar

Indian Air Force

With around 1,70,000 personnel and 1,500 aircraft, it is the fourth largest air force in the world after US, China and Russia.

• It is also the seventh strongest Air Force in the world, better than that of Germany, Australia and Japan.

The IAF flag, adopted in 1951, is blue in colour and contains the National Flag in the first quadrant and a roundel of the Tricolour.

• The IAF Roundel (logo on the planes and IAF flag) has changed four times since 1933.

• Its motto Nabha Sparsham Deeptham is taken from the eleventh chapter of the Bhagvad Gita.

• One Air Marshal at a time. Padmavathy Bandopadhyay is the first woman Air Marshal of the Indian Air Force. She was also the first woman officer to become a specialist in aviation medicine.

• The Air Force has over 60 air bases spread all over India. IAF's first HAL-made fighter was HF-24 Marut.

• The IAF created a world record while rescuing civilians during the Uttarakhand flash floods.

• The Garud Commando Force has the longest training course. Arjan Singh- The only living military officer with a 5-star rank.

• The latest addition to the Air Force arsenal, Mirage 2000, a French single-seated air defence and multi-purpose fighter jet, is powered by a single engine with maximum speed of 2,495 kilometre per hour.

• From October 1, 1993 to December 21, 1994, the IAF took part in peacekeeping duties in Somalia as part of the Indian contingent supporting UN operations. At 22,000 ft (or 6,706 m), Siachen Glacier AFS is the highest Air Force Station of the IAF.

• The IAF engaged in conflict outside the country in 1960, when Belgium's 75-year rule over Congo ended abruptly.

• The IAF destroyed more than 29 Pakistani tanks, 40 APCs and a railway train during the Battle of Longewala in the 1971 Indo-Pak War besides a number of critical installations.

• The IAF created a world record by performing the highest landing of a C-130J at the Daulat Beg Oldi airstrip in Ladakh at the height of

16614 feet (5065 meters). India is building the 5th generation Sukhoi PAK FA in collaboration with Russia. The SEPECAT Jaguar and the Mikoyan MiG-27 serve as the IAF's primary ground attack force.

• The Tejas is the second supersonic Light Combat Aircraft developed by Hindustan Aeronautics Limited (HAL).

• IAF transport aircraft airlifted hundreds of Indian troops to secure the Siachen glacier during 1984 Operation Meghdoot.

• The IAF's primary air superiority fighter with the additional capability to conduct air-ground (strike) missions is Sukhoi Su30MKI.

• The IAF is the only air force that operates C-17 Globemaster III, C130J Super Hercules, and Il-76 – the three largest transport aircrafts.

by. Samruddhi Ghore

From oh! Corona to Go corona

Corona virus or COVID – 19 is an infectious disease. Corona is native from a laboratory in Wuhan city, china. For this disease there is no cure or vaccine up till now but prevention is better than cure. we can prevent corona by following the given measures from WHO and MOHFW (ministry of health, family welfare). some measure are like maintain social distancing at lest of 6 meters. use hand wash and sanitizer (use an alcohol-based hand sanitizer that contain at least 60% alcohol to maintain effective hand hygiene). use mask in crowded places. as possible don't go outside of your home. Corona is not a fault of our fate, corona is chance given by our fate to be atmanirbar

Stay home , stay safe , stay healthy

Stay Home

Logos: fssai, Let's Stay Home, Ministry of Health and Family Welfare

FIGHT COVID-19

If soap and water are not available, use an alcohol-based hand sanitizer that contains at least 60% alcohol to maintain effective hand hygiene.

Together we can fight COVID-19!

#SwasthBharat #HealthForAll #JaiShriKrishna

Logos: fssai, Let's Stay Home, Ministry of Health and Family Welfare

Fight COVID-19

Wear a mask every time you go out.

Together we can fight COVID-19!

#SwasthBharat #HealthForAll #JaiShriKrishna

Logos: fssai, Let's Stay Home, Ministry of Health and Family Welfare

Eating well during COVID-19

- Buy foods with a long shelf life (Fresh, frozen, canned).
- Maintain an inventory of food items.
- Wash hands before & after cooking/eating.
- Avoid sharing eating utensils.

Together we can fight COVID-19!

#EatRightIndia #SwasthBharat #HealthForAll

Logos: fssai, Let's Stay Home, Ministry of Health and Family Welfare

Keep Your Distance

Limiting face-to-face contact with others is one of the most effective ways to reduce the spread of COVID-19.

At least 6 feet (about 2 meter)

Together we can fight COVID-19!

#SwasthBharat #HealthForAll #JaiShriKrishna

Stay Safe

Animal Riddles

1 . He is small but he can climb a tower.

Ans: Ant.

2. I have a pet, his body is full of coins.

Ans: Piggy bank.

3. When it was young, it had a tail. When it grew up, it had knees.

Ans : Frog.

4. It has a long neck, A name of a bird , Feeds on cargo of ships, It's not alive. What am I?

Ans: Crane .

5. A bird which does not fly.

Ans : Ostrich .

6. How do snails travel ?

Ans : Slowly .

7. What follows a dog wherever it goes ?

Ans : Tail .

8. A king without crown .

Ans : Lion .

9. What is the largest living ant on earth ?

Ans: Elephant .

10 . It's black and every time it speaks its name .

Ans: Crow .

by. Amai shetty

fun with simple logic

What has to be broken before you can use it?

- An egg

2) What is full of holes but still holds water?

-A sponge

3) A man who was outside in the rain without an umbrella or hat didn't get a single hair on his head wet. Why?

- He was bald.

4) You see a boat filled with people, yet there isn't a single person on board. How is that possible?

-All the people on the boat are married.

5) You walk into a room that contains a match, a kerosene lamp, a candle and a fireplace.

What would you light first?

-The match

6) The more of this there is, the less you see. What is it?

- Darkness

7) What gets bigger when more is taken away?

-A hole

8) If you drop me I'm sure to crack, but give me a smile and I'll always smile back. What am I?

- A mirror

9) The more you take, the more you leave behind. What are they?

-Footsteps

10) People make me, save me, change me, raise me. What am I?

- Money

11) What goes through cities and fields, but never moves?

- A road

12) I am always hungry and will die if not fed, but whatever I touch will soon turn red. What am I?

- Fire

My Meaning Of Life

The meaning of life has no definitions
It's never the same ,
How it's different ,
Makes it unique ,
My meaning of life is , Life is tree filled with leaves ,
Some leaves fall and others don't ,
Like the million of stars stuck space ,
Waiting to be discovered ,
Like fire , can war or peace ,
Like money ,
Used and wasted ,
Abused and hated ,
Loved and wanted ,
But there is a meaning of life ?
Is there a meaning to your life ?
I don't know you decide .

By – Mrudul Gauba

Sunshine

It's all about the dawn
Let's see how the lilies
frown .

It's all about the smiling
sun

See how he hellos
everyone

It's all about the golden
light

so bright and bright .

It's all about the
morning prayer

It makes us remember
that god is always
there

आई म्हणजे कोण??

आई म्हणजेकोण...?
आई म्हणजे आपल्या
लेकरासाठी दुधावरची
साय असते...
आई म्हणजे, प्रेमाची व
मायेची पवत्र
खळखळणारी नदी
असते ...
आई म्हणजे, आपल्या
लेकरासाठी प्रकाशाचा
सूयय असते....
आई म्हणजे....माय ,
माँम , मम्मी , मातोश्री
कधीच नसते तर ,...
आई म्हणजेच शिक्षक
असते, आपल्या लेकराची
शूर रक्षक असते
आई म्हणजे...
मखमली पेटीत एक
मौल्यवान हिरा असते.....
म्हणून ...
आई म्हणजे,..... आईच
असते !!!

Rising Sun

Don't feel shy,

When sun rises in the sky.

Come up with new ideas,

Come up with new zest,

Come up with new hopes,

And give it your best.

Shine like the sun,

But don't emit the flames.

Don't let others down

To make your name and fame.

Brighter and lighter the sun shines,

To make our day fine.

Make it better everyday,

And let the vain go away.

- Vidhi Dusane

THE RISE OF JOY

***The sun soars high,
and lit up the sky.
Says a good bye,
to an every star and a moon in
night sky.***

***Here a new day arrives with full
of joy
the air with positivity flits by.
The dark black sky is now orange
and blue,
the day will be alright isn't it
true?***

Aditya Deepak Baviskar

Beauty of nature

Nature has so Many Things to see , To observe ,to watch ,to feel .

Like the butterflies flying around , Squirrels quarrelling and birds singing.

Ducks playing in the water and many more things present all over earth .

This the beauty of nature We can only be seen in Nature and in Nature .

**Amai Shetty
IX A**

Wonders of stars

*Shining away far
That is the brightest star
All are stunned cause it's looking
like a diamond
The moon is its partner
As the vision is clear
It conquers the night
With darkness it fights
Look upon the sky and your heart
will fly*

- Samruddhi bhosale

EVENING

To the welcome the wondrous moonlight
Shines the sun in humble spark,
Orange paint, and purple canvas
All this is his creativity's mark.

To tiny stars and glorious moon
The sun entrusts its lightning duty,
Slowly yet sweetly
It fades away flaunting nature's beauty.

Representing the idea of hope's rebirth
Stands the evening proudly,
Twitter, rustling and wheezing
All to be heard mildly

. Whispering its routine to the roses white
The breeze has to flow,
Also remembering to pass through the leaf
Which stays in its golden glow.

Tried, the birds return to their nests
Much to their young one's glee,
While some creatures nocturnal
Out of their homes, they have to be.

_Gauri Patil IX A

A square graphic with a magenta center and green corners. The magenta area is a large square with a diagonal line from the top-left to the bottom-right. The green areas are triangles in the top-left and bottom-right corners.

Words of Wisdom

From the desk of English tr

A letter to IX A

Greeting to each one of you ,

I have the privilege of teaching you English and self development. I enjoy every session with you. thank you for interacting and talking a keen interest in learning .I met you in zoom screen thanks to what amazing is that you dear children have adjusted so well in the "new normal" . where as we adults panicked ! We teachers were loss at teaching online was completely new experience the mobile which we use only a communication tool became the most important teaching aid. it was very horrifying for some of us after a long time we who had settled in classroom teaching with physically present and we who is essentially needed a blackboard and chalk had to learn suddenly to teach online .I learnt from my children ,husband ,and anyone who was ready to teach .it was the novel experience and an exciting experience to get into the shoes of student. Yes , we learnt too . but what amazed me was that all of you slipped so comfortably into the new environment . online learning ,no school, no going out, no meeting friends -everything was so different so many adjustment, but you got in the "new normal" with ease. I is realized that it is a blessing to be a child .less demand , few or no Expectations compared to adults Ino cribbing you manage in fact you were excited . parents who never let you have a mobile were buying a mobile for you .your generation is so smart and intelligent . a few of you did face problem .coronavirus, a microscopic change the mindset of the clock and put us in task of learning online . thank you children for being patient with us , for helping us out guiding us while you learnt along with us. we soon became one -pack sometimes you learnt from us and sometimes we learnt from you .God has made humans so wonderful well that we learn from the situations we are into and some out victorious you have not let us feel alone you have found new ways of online mischief which reminds us that you are students who have not changed in their Innocence but have matured in other areas. let us help and support each other and enjoy schooling even if we are physically distance.

happy online learning

stay safe stay healthy

by. Kanta tr

Dear children,

I feel so glad to interact with you through this e-magazine! You are in the most wonderful stage of life – Adolescence!! An age where along with exploring the world around you, you are on a trip of Self exploration! A child on the way to find himself. Wow! Its ages since we went through the same fears, confusion, realizations, heart, breaks, firm friendships, secrets, pressures and the “Eureka moments”. A time to take risks, fail or succeed.... tears or smiles! But keep trying new adventures.... Be ever willing to take up challenges. This is the most appropriate age to learn “the never give up” strategy.

Remember, ‘A ship in harbour is safe-but that is not what ships are built for.’ You were not created to be harboured - You were rather created to sail through rough & smooth waters!’ Find the shore and shout your lungs out. Be happy. Celebrate your victory. Each small success needs to be celebrated. In case, you fail – don’t worry be brave “courage doesn’t always roar. Sometimes courage is the little voice to the end of the day that says “I’ll try again tomorrow. This is the time to be strong. Persevere, Dream. Get down to make your dream come true. Handwork is rewarded. Invest in firm and trustworthy friends. They are a rainbow in your life. Love your parents. They are firm rocks on which you can stand in times of floods.

Lean on your gurus for they have woven the fabric of your life along with your parents. Value life and be thankful to the Almighty for loaning it to you – make the most of it by adding studded jewels to it and go forth and shine in the world. Reflect the values and spread love around! All the best.

Live simple but a value- packed life

Make India proud of you.

With fondest love

Tr. Kanta

मैत्र जीवांचे

मैत्रीची ताकद आपल्या सगळ्यांना माहित आहे. उदात्त मैत्रीची अनेक उदाहरणे आपण ऐकली आहेत. मैत्रीखातर आपण काहीही करायला तयार होतो पण आपण एका अत्यंत जीवाभावाच्या मित्राला अनेक वेळा विसरून जातो. तो मित्र म्हणजे आपण स्वतःच !

आपणच आपले मित्र होऊ शकलो तर किती छान होईल! मित्र मित्राला संकटकाळी निःस्वार्थीपणे मदत करत असतो त्याच्या पाठीशी खंबीरपणे उभा असतो. गुणदोषासकट मित्र एकमेकांना स्विकारतात तसेच आपणच स्वतःला आहोत तसेच स्विकारून स्वतःवर प्रेम करून परखडपणे गुणदोषांची चिकित्सा करून स्वतःच्याच मनाशी संवाद साधला तर !

हो आपण हे कौशल्य आत्मसात केले तर बहार येईल. आपण अर्थपूर्ण आयुष्य जगू शकू. स्वतःच्या विचारांशी, भावनांशी आपण प्रामाणिक असलो तर कोणत्याही खडतर परिस्थितीला आपण तोंड देऊ शकू. स्वतःची बलस्थाने व कमकुवतपणा माहिती असेल तर नैराश्याची मभळ आल्यावर स्वसंवादाने त्यावर मात करता येईल. स्वतःच स्वतःला प्रोत्साहन देऊन जगण्याची उर्जा मिळवता येईल. कधीतरी दाटून येणारे एकाकीपणाचे काळे ढग या मैत्रीच्या जोरावर दूर लोटून स्वच्छंदी जगण्याचा आनंद घेता येईल.

तर घला तयार होऊयात स्वतःशीच मैत्री करायला...

- योगिता कुसकर्णी

10 वी 'अ' वर्गशिक्षिका

I came to this world, fully prepared with armor of adversity and distress to battle with the enemy. The enemy who is the reason for devastating Mother earth by exploiting all her natural resources and brutally taking away the lives of other creatures to satisfy its needs. The enemy is Human Being and perhaps his needs have changed into his greed. Incessantly he has been utilizing the natural resources and hunting the animals to satisfy his never ending wants. He is ambitious, egoistic and ready to do anything to achieve his goals. And I am here on the mission to breakdown this egoist race.

But mere fatal accidents and natural calamities were proving insufficient to bring down human race-. So I discovered something horrific to bring this race down on their -knees. I brought tiniest and deadliest virus with me. Since, last few months I am battling with Mankind to succumb him.

But all my efforts are being countered well. It is becoming impossible to subdue this intelligent race. Naturally -, after all Man is considered the wisest creature of Almighty. My deadliest weapon has put lot of restrictions on Man. But every time like a Phoenix, he gets revived. I have put him in the lockdown- he found time to explore his inner skills.

I asked him to maintain social distancing- he is Standing United through Social media. I stopped all the eateries- he transformed his kitchen into restaurant. I tried to fill his life with agony and sufferingshe raised many hands to recover. It is very difficult to beat this race because it is knowledgeable and very well knows how to adapt in adverse circumstances.

Mankind doesn't allow any torments to deplete his energy. "It is going to be hard and hard doesn't mean impossible....." These words rightly describes, Man's never give up attitude. His clinching to hope is unbelievable. And this iron resolution of man is forcing me hard to give up soon.....

My only message to this marvelous man is YOU can't empower and rule over Mother Earth. It belongs equally to all the creatures living on it. These creatures in your vicinity are meant to be taken care of and not to be killed -mercilessly to fulfill your desires. Don't be cunning and make me come at you harder. You are blessed with generosity, kindness and most importantly intelligence. Use your skills meticulously to prosper Mother Earth.

May God save you from this Virus.....

by. Savita tr

Gratitude

I thank all the parents for the hard work and efforts they have taken for availing devices and net connection which were necessary for online learning . – amia shetty

• Thank you so much teachers for your kind efforts to teach us even in this pandemic . . I can proudly say that they gave their heart and soul to teach us . – janmesh shewale

• Pandemic situation put a big question on learning it, affected school and routine studies . considering the high risk of covid-19 infections and to avoid loss of yearly studies . School management, our respected Sister Flora decided to move on with the virtual classes . This experience was new to all . So many technical defaults , network issues, timing issues and other many huddles tried to stop us still all teachers gave their best and taught us in this pandemic situation .I got this opportunity, to thank on behalf of all the students, parents . I thank all the technicians, school management, Sister Flora, all respective and supportive teachers, and non teaching staff, who co-operated us (students) in our academic year study planing.

- Dnyapti tilgulkar

• I am grateful to all the saviors of our society . Our corona warriors fought for us so that we can stay safe at our home . We 9th A salute you all for your sacrifices . – samruddhi gorhe

Dnyapati & Samruddhi

WORDS OF GRATITUDE To RUPA TEACHER

Dear Madam,

We would like to inform you that we have found the books which have been sent to us on the parent's app has been really

helpful. We while away our time by reading them. The variety of

books you send us each time is vast and thus we have all types

of books to read and enjoy in our leisure times. We have been

benefiting a lot from the E-library. We thank you for providing us this facility in the crucial circumstances. We also thank you for the efforts you have been

taking so that we are able enjoy reading books the same way we

did in the school library in the non-covid times. The books have

been a strong foundation for our knowledge as well as vocabulary

when the library was ongoing. When the pandemic spread in India, it was not likely for us to read from the library again.

However, we consider ourselves fortunate for this opportunity
